DRAFT

Open spaces and sports facilities survey for parishes

Thank you for taking the time to fill in this survey which will provide important information relating to your parish to enable an accurate picture of your open spaces and sporting places. We'd like to check the information we already hold as well as hear about any projects you have planned.

Name of parish:	Fringford
Contact name:	Jane Olds
Email:	Fringford.pariahclerk@gmail.com
Phone number:	01869 247171

To enable us to take your views into account the **closing date** for responses to this survey is **15th October 2016**

The survey can be sent back electronically to robbie@nortoft.co.uk or by post to:

**Nortoft Partnerships Ltd, 2 Green Lodge Barn, Nobottle,
NORTHAMPTON NN7 4HD**

1 Open space and facilities sites map check

Enclosed is a draft map of the sites within your parish based on the existing information, on which we would like your comments. The map should include the following:

- Parks and gardens with unrestricted public access
- Amenity green space with unrestricted public access and where there is a clear amenity use
- Facilities for children and young people (play areas, teenage facilities etc.) which have unrestricted public access (excludes facilities in school playgrounds, pub gardens, and similar).
- Green corridors with unrestricted public access
- Natural and semi natural green space with unrestricted public access
- Outdoor sports facilities used by the community including parish playing fields, bowls greens, tennis courts, multi use games areas etc, but EXCLUDING school playing fields
- Allotments and community gardens
- Churchyards and cemeteries
- Civic spaces (e.g. market squares, war memorial or similar areas, pedestrianised areas)

We would be very grateful if you could please review the information on the map and let us know if there are any additional sites that you feel should be included, or if any sites should be amended (location or description) or should be removed. You can do this by drawing and writing on the map and returning to us or by describing the site and its location. Please give as much detail as possible to enable us to identify the sites.

In this study we are excluding the very small public open space sites that have no or very limited amenity use, for example road side verges. These small public open space sites will however remain protected under the existing planning policies within the local plan.
